

When your hearing aids connect
directly to any mobile phone*,
life is on

*with Bluetooth® 4.2 wireless technology and most older Bluetooth phones

 TRUSTED PROVIDER
PHONAK HEARING SOLUTIONS

New hearing aid technology allows you to easily connect to any mobile phone* or TV

Swiss company Phonak, the world's leading provider of hearing solutions, has just introduced a new hearing aid called Audéo™ B-Direct – the Made For All direct connectivity hearing solution.

What makes Audéo B-Direct so special? It's the fact that these hearing aids connect directly to any mobile phone[†], regardless of the brand or operating system. As long as it has Bluetooth®, you're good to go.

And if that's not enough, Audéo B-Direct hearing aids easily connect to your TV turning the hearing aids into wireless TV headphones. You can now enjoy excellent stereo sound quality from your TV while those around you can listen at a comfortable volume level.

Whether it's connecting to your mobile phone[†] or TV, you don't need any technical know-how to set up Audéo B-Direct. They follow a very simple plug and play approach.

When your hearing aids connect
directly to movie night,
life is on

Introducing Phonak Audéo™ B-Direct.

Enjoy the freedom of being able to easily connect with any Bluetooth® phone*, *regardless of the brand.*

Answer calls with a touch of your hearing aids and use them as a wireless headset to talk hands-free.

Use your hearing aids as wireless TV headphones and experience clear, quality, stereo sound on your TV.

*with Bluetooth® 4.2 wireless technology and most older Bluetooth phones

PHONAK
life is on
